EXPRESS APPLICATION REVIEW FEES

Multiple Express Permit Fees:

When an applicant requests express review of more than one type of permit application associated with a single project, **and the applications are submitted to DENR at the same time**, the maximum fee paid may not exceed the following amounts:

Chart 2 – Permit Fee Caps as stated in the Legislative, applicable to program listed in Chart 1

	Situation A	Situation B	Situation C
If applications submitted include →	<u>All</u> of the five types of applications listed above in Chart 1	The first four of the applications listed above in Chart 1 (all but a CAMA permit application)	<u>Any other</u> combination of the applications listed above
Then, the total application fee ² is →	\$5500	\$4500	\$4000

²Note: If application is made for an Erosion & Sedimentation Control (E&SC) permit, under one of the situations provided above, the applicant must pay a fee equal to \$65 per acre of land disturbed plus the fee indicated in the table.

*Example: If an applicant requests express review of applications submitted for state storm water permit (high density project) and an E&SC permit (8 acres disturbed) the fee for this project is \$4000 for the express fee and \$520 (\$65 per acre x 8 acres). The Department prefers these Land Quality Acreage fees be paid separately. **All checks** should be made out to NC DENR.*
